SKILLS

- **Programming & Backend:** Java, C++, C, R, JDBC, REST APIs, Multithreading, OOPS
- **Databases & Data Analysis:** MySQL, R Programming, Tableau
- **Soft Skills:** Leadership, Problem Solving, Team Collaboration, Decision Making

PROJECTS

Project: ATM Simulator System

December 24

Objective: Developed a secure and efficient ATM banking system backend to manage user authentication, transactions, and data integrity using Java and MySQL.

Description:

- Implemented JDBC-based database interactions for secure transactions, including deposits, withdrawals, balance inquiries, and PIN management.
- Integrated authentication & encryption techniques to enhance security and prevent unauthorized access.
- Applied OOP principles to build a modular, scalable, and maintainable architecture, integrating multithreading and exception handling for concurrent transaction processing and system stability.
- Tech Stack: Java, JDBC, MySQL, OOP, Multithreading, Exception Handling.

Project: IPL Auction Dashboard

October 24

Objective: Developed an interactive and insightful dashboard to analyze IPL auction statistics, focusing on team composition, financial trends, and player performance.

Description:

Utilized R Programming to clean, transform, and structure auction data for analysis.

- Designed interactive Tableau dashboards to visualize auction trends, player statistics, and team spending.
- Enhanced understanding of auction dynamics and data-driven decision-making processes by focusing on bidding trends and team strategies.
- Tech Stack: R, dplyr, tidyr, ggplot2, MySQL, RStudio, Tableau Desktop.

CERTIFICATES

- | | |
|---|-----------------|
| • Mastering Data Structure and Algorithm Course by GEEKSFORGEEKS. | 6 Months |
| • Introduction to Hardware and Operating Systems by IBM. | 1 Month |
| • Introduction to Machine Learning Course by IIT Madras. | 12 Weeks |
| • Data Analysis with R Programming by Google. | 18 Weeks |
| • Data Analysis with Tableau by Salesforce. | 12 Weeks |

ACHIEVEMENTS

• Solved 400+ algorithmic problems among various practice platforms

Actively solving DSA problems on LeetCode and GeeksForGeeks to enhance problem-solving and algorithmic skills.

• One among Dean's top 1% students at university:

Recognized for academic excellence and active participation in extracurricular activities at university.

Extra Circular Activities

- **Active Member of Apna Ghar NGO:** Contributed to social initiatives and community development programs, demonstrating commitment to social responsibility and teamwork.
- **State Level Sports participant:** Represented at state and district levels, developing resilience, strategic decision-making, and the ability to perform under high-pressure situations.
- **Hostel Amenities Committee Coordinator :** Managed hostel infrastructure, addressed resident concerns, and ensured efficient resource allocation, improving living conditions and operational efficiency.

Workshops

May 24

- Attended a workshop on Electrical Communication Engineering (ECE) to understand Arduino functionalities, circuit design, and microcontroller programming. Applied this knowledge to develop a functional traffic light system.

EDUCATION

- | | |
|--|--|
| • Lovely Professional University
Bachelor of Technology - Computer Science and Engineering; CGPA: 9.09 | Jalandhar, Punjab
Since August 2022 |
| • LASEA
Intermediate; Percentage: 87% | Jhalawar, Rajasthan
April 2019 - March 2020 |
